Action Supplement

I. MULTIFAMILY PROGRAMS

A. Request for Authorization to Utilize Remaining 2014 Low Income Housing Tax Credit Allocation Authority (Housing Credits)

1. Background

- a) Primarily through the seven different Housing Credit Requests for Applications (RFAs) issued since September of last year, Florida Housing awarded \$43,570,556 of our 2014 Housing Credits.
- b) In each of those RFAs, there were small amounts of Housing Credits left over. Each RFA provided the Board with the authority to determine what to do with those remaining Housing Credits.

2. Present Situation

- a) Adding together those small amounts of leftover Housing Credits remaining from the various RFAs, Housing Credits that were returned from previously awarded transactions that did not use all of their awarded allocation, and the \$186,057 in Housing Credits received recently from the 2014 National Pool, Florida Housing now has roughly \$1.72 million in remaining 2014 Housing Credits.
- b) Florida Housing has the option to carry forward those 2014 Housing Credits for use in 2015 (doing so would make us ineligible for National Pool Housing Credits in 2015).
- c) At its September meeting, the Board approved the tentative funding amounts and time lines for the RFAs for multifamily developments in the coming year, which included an estimated \$46 million in 2015 Housing Credits (the updated timeline is attached as Exhibit A).
- d) Based on the anticipated amount of Housing Credits available for the large county geographic RFAs and a distribution based on the pro-rata need in those counties as represented in the 2013 Rental Market Study: Affordable Rental Housing Needs report prepared by the Shimberg Center for Housing Studies, there will be enough resources available to fund (see Housing Credit funding breakdown for Geographic RFAs attached as Exhibit B):
 - (1) Two transactions serving homeless households;
 - (2) Two transactions in Miami-Dade County; and
 - (3) One transaction in each of the remaining six large counties (Broward, Duval, Hillsborough, Orange, Palm Beach and Pinellas).
- e) Because Broward County has the second highest level of cost-burdened renter households in the state (Miami-Dade County has the highest); and because Broward County has been the large county in which Florida Housing has funded

the fewest number of units relative to the need over time, staff believes it would be optimal to fund a second transaction in Broward County.

3. **Recommendation**

That the Board authorize staff to proceed with carrying forward the remaining \$1.72 million in 2014 Housing Credits for use in RFA 2014-115 (the RFA which will allocate Housing Credits to Broward, Duval, Hillsborough, Orange, Palm Beach and Pinellas Counties) to ensure that we fund a second non-homeless Broward County transaction.
